

Acorn Systems

Industry Value Accelerators™

Preconfigured Profit-Improvement Roadmap Application

Product Overview:

Acorn's Industry Value Accelerators (IVA) is a preconfigured solution that provides a profit improvement roadmap and rapid deployment. Easily customized to your specific needs, these industry specific applications contain:

- Template model structures
- Business rules
- Integration steps
- Packaged reporting
- Data requests

Leverage Acorn's proven success in numerous industries and jump start your track to improved profitability by starting your project with one of the targeted Industry Value Accelerators.

Industry focuses include:

- Distribution and Logistics
- Manufacturing
- Healthcare
- Retail
- Technology
- Telecommunications

Technical Specifications and Application Features

Technical Specifications:

- Requires SQL Server Reporting Services 2008 for reporting accelerators
- Requires Microsoft Performance Point 2007 and SharePoint 2007 for dashboard accelerators

Utility Features:

- Template Model for building the industry standard model
- Data Extract Requirement for pinpointing the required data from your CRM, ERP or Data Warehouse
- Standard Dashboards for reporting deployment into Microsoft SharePoint 2007
